I want to take this opportunity to thank the women of Tulsa and Tulsa's trade territory for

I have started out to do a large volume of ladies'

ready-to-wear business on the smallest possible overhead expense. I was advised by my friends that I could not do it and I was foolish for attempting to do a large volume of ladies' ready-to-wear business as my room was too small and

I was out of the present shopping district and the PUBLIC DOES NOT APPRECIATE VALUES sufficiently to go a little out of their way and forego a little extra service for a real bargain all the time.

I felt different. I have been dealing with the public for a good many years and I feel that I know the public and I believe that they do appreciate values and will go a little out of their

way to get them, providing they are satisfied in their own mind that they are really getting what is represented to them, and in the last year I have proven my own conviction to my entire satisfaction, and while other stores may have made

more money than I have, the confidence and good will of the women in Tulsa and Tulsa's trade territory for Poplinger's WORTH-MORE SHOP means more for the future of this store than a few more dollars in profit would at present, and that is why I say we have had a most

Our business was much more than we dared dream it would be, and I want you to know that I appreciate your patronage, be it ever so little.

I am making great plans for the coming year. I intend to fully double my business—yes, treble my business this coming year, and I intend giv-

ing the women of Tulsa and its trade territory greater values in women's and misses' popular-price wearing apparel than they have ever gotten before. We might not be able to give you high-class service, but if a saving of 35% to

50% on your purchase means anything to you you can overlook that. There is an old adage. "A genius, although living in the densest of woods, the world will make a path to his door." I believe the same thing applies to this store.

We may be just a little out of the regular shopping district, we may not have a large, pretentious store room, but we do and will give you values in women's and misses' wearing apparel that the public will build a highway to Pen-

Again wishing everyone a Happy and Prosperous New Year.
